Last edition by Snowyy; March 25, 2022 at 20:40. Page 2 In problem with the game freezing just when playing Labs Ive completed some texture mods and everything is going well. The only question is that when I click next to go back to the main menu after an attack in laboratories, if I died or lived the game freezes and I have to force it closed. All other maps work well. Any ideas? could provide some logs, if necessary, page 3 of January 16, 2021, 13:49 #1 A pathetic n00bie eft - ping spoofing I was reading some older posts on how to play on other servers and fake ping or stop the kick of 150 ping on Eft "1. Download dnspy 2. download de4dot 3. backup your bsglauncher file. exe and config_matching" does anyone have updated information on how to fake ping on eft? I'm trying to play with friends for seas, but I'm kicked with ping at 165. I tried the VPNs exit LAG and it works a few times. But trying to find something better. Any ideas? Thank you.Offline on January 18, 2021, 15:55 #2 Master Collaborator Quotes: Originally posted by Mightygoat308 I was reading some older posts on how to play on other servers and falsify ping or stop the 150 ping kick ON ON "1. Download dnspy 2. download de4dot 3. backup your BSGLauncher file. exe e config_matching" someone has up-to-date information on how spoof ping on eft? I'm trying to play with friends about the seas, but be kicked with ping no 165. I've tried vpn as an exit lag and it works a few times. but try to find something better. Any ideas? Thank you as I remember that they check the ping server side from time to time. But I'm not sure if they still do.
